

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

ERRATA.

Mr. W. Sutton points out the following *errata* in Mr. Sprague's paper *On the Value of Apportionable Annuities*.

Vol. xiv., p. 38, line 4 from bottom,

$$\text{For } \frac{1}{4} + \frac{1}{2n} + \frac{1}{6n^2} - \frac{1}{30n^3} \text{ read } \frac{1}{4} + \frac{1}{2n} + \frac{1}{4n^2}.$$

Vol. xiv., p. 42, line 8,

$$\text{Add the term } + \frac{1}{12} \frac{D'_k}{D_k} \frac{\delta \tau^2}{2} \left(\frac{1}{m} - \tau \right)^2.$$

NOTICES TO CORRESPONDENTS.

Communications for this *Journal* must be sent in at least one month prior to the day of publication, or their insertion will in all probability be deferred.

We have been favoured by the Examiners appointed by the Council of the Institute to conduct the Second Year's Examination, held last December, with solutions of several of the questions proposed by them; which we hope to be able to insert in our next number.

In consequence of the length to which the papers read before the Institute and the usual account of its proceedings have extended, it has been found necessary to increase the size of the present number to six sheets, the price being raised in proportion to 3s.
